Nest Building

The Task
Research and experiment with different nest building techniques found in nature.

How?
- Discuss / research with the pupils how different birds make nests.
- Plan and sketch possible designs.
- Select and travel to a venue with plenty of natural nest building materials.
- Collect materials.
- Build nests individually or in small groups and have fun.
- Review and evaluate each others work.
- Discuss the different styles of construction.

Considerations
- Front load the task with research on the methods used by different birds.
- Consider the environmental impacts of the activity and designs.
- Use the experience to promote a wider appreciation of local birds and wildlife in the area.

What will you need?
Area with plenty of natural materials for nest building e.g. grass, twigs, mud, stones leaves etc.

Nest Building

Organisation & Layout
• Work in teams to create your nest.
• Use research to explore different build techniques and the materials used by different birds.
• Select from and use a wide range of local materials and components to build your own nest.

Learning Objectives
• Practice teamwork, cooperation and communication skills.
• Enjoy being and working outside.
• How and where to forage for good natural material.
• Gain an understanding of how birds use different materials to build complex structures.
• Gain an understanding of the natural world with a wider reference to STEM subjects.

Safety Information
• Select a safe, easily supervised area with access to the required raw materials for the task.
• Set clear rules and boundaries for the group. More controls will be needed if using a public areas.
• Ensure good sight lines and have a call back system.
• Consider hygiene and sharp objects when clearing up.

Review & Assessment
• Work in teams to create, present and peer review your nests.
• Evaluate their ideas and products against their own design criteria and consider the views of others to improve their work.
• Apply their new learning to another design project or task to reinforce knowledge and encourage transferability of skills.
