

Snow

Do you know what makes it snow?

Does it need to be below zero degrees, and can it be too cold for snow?

What does a snowflake look like?

- **Snow isn't actually white, it is clear!**
- **Snow is formed by up to 200 ice crystals.**
- **Around 75% of the planets fresh water is housed in snow & ice.**
- **On average snow falls at 1.5mph.**
- **The Cairngorms are the snowiest place in the UK.**
- **Two snowflakes can be the same!!**
