

Telling Conifers Apart

Spruce

- Single needles on brown pegs
- Roll between fingers
- Spiny, Sharp

Pine

- Needles in 2, 3 or 5 clusters with papery base
- Most likely in Pairs in Scotland for Scots Pine

Fir

- Single needles with no brown peg
- Can't roll between fingers
- Fat, Flat, Soft

Larch

- Larches lose their needles during winter
- When they have needles they have Lots growing together
